NEWS RELEASE

AFFINITY GOLD CORP. ANNOUNCES UPDATE REGARDING ITS REGULATORY FILING STATUS

Maple Grove, Minnesota – September 25, 2014 – Affinity Gold Corp. (AFYG.pk) (“Affinity” or “the Company”) is extremely pleased to announce an update regarding the Company’s progress towards becoming compliant with its regulatory obligations with the U.S. Securities and Exchange Commission (the “SEC”).

On Monday, September 22nd, 2014, Affinity filed an amended Form 8-K filing with the SEC which is an amendment to the Company’s Form 8-K originally filed May 13th, 2009 and subsequently amended August 21, 2009 and September 2, 2009 in order to file unaudited US GAAP financial statements of AMR Project Peru S.A.C. (“AMR”) covering periods prior to the Company’s merger on August 14, 2009 along with pro forma financial statements with will account for the transaction as a merger of entities under common control.

“This first amended Form 8-K filing marks another significant accomplishment for the Company as it establishes the baseline for all subsequent filings going forward. Furthermore, this filing demonstrates the Company has been able to work through all its challenges including receiving confirmation and direction from the SEC for how the Company can best proceed in accomplishing its goal of becoming compliant with its regulatory obligations” stated President & CEO, Mr. Corey J. Sandberg.

Next, management will focus on its comprehensive Form 10-K filing which will include audited financial statements for the nine-month transition period in 2009, associated with the Company’s change in fiscal year-end to December 31st, along with each subsequent fiscal year through December 31, 2013. In addition, the comprehensive Form 10-K filing will contain all information that would have been otherwise required for these periods, including quarterly and year-to-date interim financial statements for each period within those fiscal years, a comprehensive business discussion and MD&A pertaining to all periods. All annual and interim financial statements covered within the comprehensive Form 10-K filing will be presented on a comparative basis.

“This recent accomplishment now allows Affinity to resume execution against our overall strategy to grow the company which is dependent on being fully compliant with its regulatory obligations providing shareholders financial transparency of the Company. Upon completion of filing our comprehensive Form 10-K and interim quarterly periods for 2014, the Company intends to then apply to regain its OTCQB status” stated President & CEO, Mr. Corey J. Sandberg.

**About Affinity Gold Corp.:**

Affinity Gold Corp. is a mineral exploration and development company engaged in the acquisition and development of near-term precious mineral production properties within Peru.
